Select "Our Programs" -->  
"Lango"

Well Baby Center is a 501(c)(3)  
non-profit organization

Not only will your child learn Spanish, he/she will also gain an appreciation for other cultures, meet new friends, and make developmental strides that will prepare him/her for success in school. Accompanied by their parents and loved ones, our young 'students' begin learning a new language through a variety of activities designed to engage their minds through play and family connection. Lango is a great way for parents to learn a new language alongside their children and this shared activity only enhances the pleasure!

Teacher Susana is committed to creating positive and engaging language-learning experiences for children. She has completed the Teachers Credential Program and studied various teaching theories and methodologies. She has also taken key courses in child development theory. In addition, she has received training regarding teaching children through songs, music and movement.

For more information about Lango, please contact:  
Susana Feria at Lango at 310-633-4512.
